PIG PRODUCTION

Technical Description

- Motor-controlled blade angles with stepless adjustment for precise airflow control.
- Automatically adjusts based on internal environmental temperature to reduce cold stress on pigs.
- Made of PVC and ABS materials with strong corrosion resistance and reliable structure.
- Stainless steel fittings, stable structure, durable corrosion resistance.

Product Parameters

| | |
|--------------------------|--|
| Use | Winter Ceiling Ventilation |
| Max Airflow Rate | |
| Opening Hole Size | |
| Material | PVC Fan Blade, ABS End Plate |
| Driving Mode | Manual, Auto |
| Performance | Stability, Corrosion Resistance, Anti-Corrosion |
